

Claims

1. A portable electronic device (1) comprising a housing (3) and at least one detachable cover element (4) and being provided with strap-attaching means provided on the housing (3) for attaching a carrying strap (2) to the electronic device (1), **characterised in** that the strap-attaching means is concealed by the detachable cover element (4); and that an opening (10) giving access to a carrying strap (2) from outside of the electronic device (1) to the attaching means is provided.
2. A portable electronic device according to claim 1, **characterised in** that the strap-attaching means comprises an eyelet (11) provided in a part of the housing (3).
3. A portable electronic device according to claim 2, **characterised in** that the eyelet (11) is provided in an inwardly protruding tongue (12) provided in the housing (3).
4. A portable electronic device according to claim 2, **characterised in** that the eyelet (11) is provided at an inwardly facing part of a wall (14) of the housing (3).
5. A portable electronic device according to claim 1, **characterised in** that that the strap-attaching means comprises a hook (15) provided inwardly in the housing (3).
6. A portable electronic device according to any one of claims 1-5, **characterised in** that a recess (8) is provided at an edge of the detachable cover element (4), said recess (8) in combination with an edge (9) of the housing (3) forming the opening (10) for a carrying strap (2).
7. A portable electronic device according to any one of claims 1-6, **characterised in** that the detachable cover element (4) is a battery cover.

8. A portable electronic device according to any one of claims 1-7, **characterised in** that the electronic device (1) is a mobile radio station, such as a mobile telephone.
